

# We're improving our website

In February 2017 you'll see some improvements to our [www.stonewater.org](http://www.stonewater.org) landing page.

1. Three simplified dropdown menus
  - > Find a home (includes 'Building homes')
  - > For Residents
  - > Get Involved

Our other website [www.stonewaterhomes.co.uk](http://www.stonewaterhomes.co.uk) carries all the 'For homeowners' information.

2. A clearer link to **MyHome Online** where you can register to:
  - > view your statement
  - > view service charge details
  - > amend your contact details (to name but a few)

3. Quick links to our three most popular pages\*:
  - > Pay your rent
  - > Report a repair
  - > Get support (contact us)

4. Easier access to the **Customer hubb** (our digital resident discussion forum).

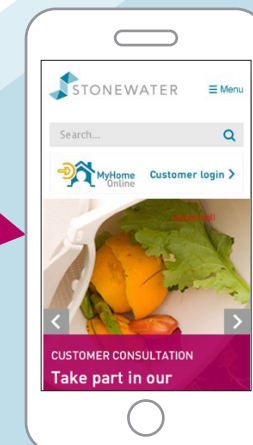

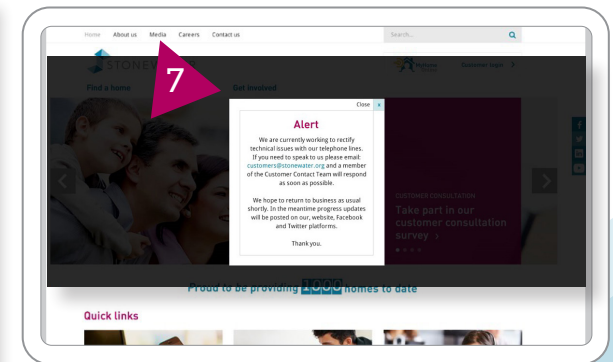

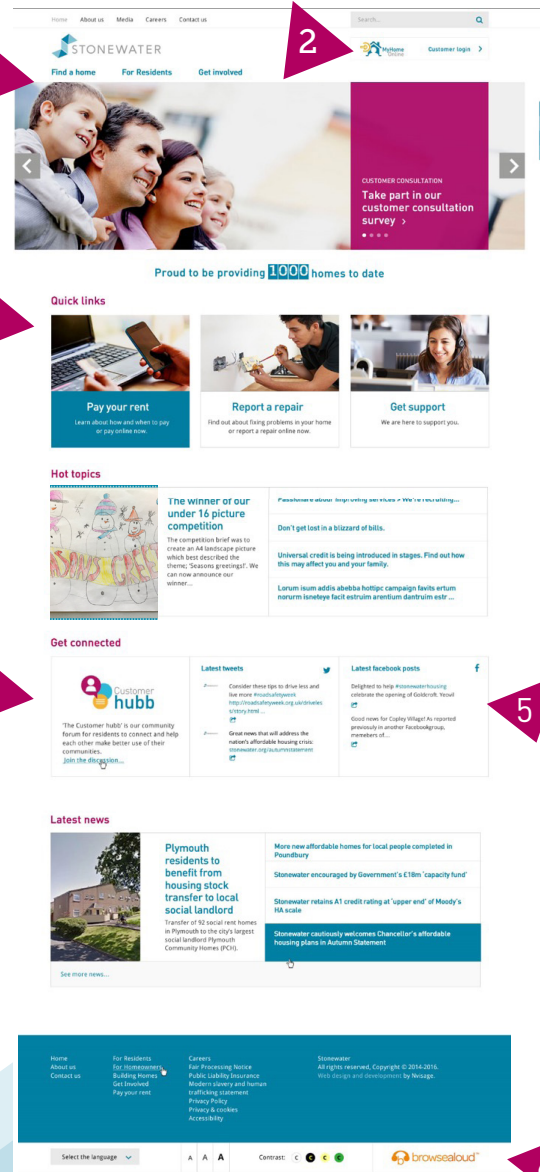

5. Links to our latest Facebook and Twitter messages so anyone without an account can see what's being posted.

6. A diversity toolbar incorporating 'browsearchoud' functionality with a language selector that can translate web content on pages and documents.

7. An alert pop up frame that will be displayed as soon as you land on our page to let you know if there are any known issues that may affect our service (eg: telephone or system glitches).

8. Improved mobile compatibility.

For more details on these, and other enhancements visit [www.stonewater.org](http://www.stonewater.org)
